REPORT OF HEALTH OFFICER

There was an epidemic of whooping cough this fall. This was mild due, in part, to the fact that a great many children were immunized earlier than usual.

If all the children were immunized against whooping cough when a year old, the disease would be less prevalent and the cases which did occur would be milder.

There were a few cases of chicken-pox and one each of scarlet fever and undulant fever reported. The case of undulant was outside the village.

Pneumonia has been more prevalent this past year.

Respectfully submitted

AUDITORS' REPORT

This is to certify that we have audited the records of the Tax Collector for the current year, and find all taxes accounted for. We have checked the revenue received from the Town Clerk for motor vehicle permits and dog licenses.
